### **DETAILED ACTION**

1. This office action is in response to the communication: RCE and Preliminary amendment both 6/22/2004, to the original application filed 07/30/20001.
2. Claims 1, 2, 4 – 12, 14, 17 – 25, 27 – 29, and 31 – 32 are pending; Claims 1, 11, 14, 18, 19, 24 29, and 31 are amended and Claims 3, 13, 16, 26, 30 and 33 are canceled.

### ***Continued Examination Under 37 CFR 1.114***

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/22/2004 has been entered.

### **Allowable Subject Matter**

4. This application is in condition for allowance except for the presence of claims 11, 12, 24, 25, 27 – 29, and 31 – 32 non-elected without traverse. Accordingly claims 11, 12, 24, 25, 27 – 29, and 31 – 32 have been cancelled.

During telephone conversation with George Lewis, Attorney for the Applicant, Registration Number 53,214 on July 16, 2004 a provisional election was made without traverse to prosecute claims 1, 2, 4 – 10, and 14, 15, 17 – 23.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims,

Please cancel claims 11, 12, 24, 25, 27 – 29, and 31 – 32.

5. Claims 1, 2, 4 – 10, and 14, 15, 17 – 23 (re-numbered 1 – 18) are allowed over the prior art of record.

6. The following is an examiner's statement of reasons for allowance:

The prior art of record, either singularly or in combination, fail to anticipate or render obvious the recited feature "a computer program product encoding a computer program for executing on a computer system a computer process for identifying a root set of pointers to a heap in a call stack using compact garbage collection tables adapted for use in reclaiming memory from the heap during runtime, the computer process comprising:

generating a first call site table storing call site identifiers, each call site identifier identifying the location of a call site in a computer program;

generating a final descriptor table storing a set of unique descriptors to be associated with one or more stack frames by a garbage collector, each unique descriptor describing a set of registers containing pointers to the heap and a set of

offsets relative to a location within each of the one or more stack frame containing pointers to the heap;

generating a descriptor reference table associated with the first call site table, each entry in the descriptor reference table mapping a call site identifier in the first call site table to one of the unique descriptors in the final descriptor table;

traversing the call stack and associating a first stack frame in the call stack with a first call site identifier using the first call site table;

associating the first call site identifier with a first unique descriptor in the final descriptor table using the descriptor reference table; and

using the first unique descriptor to identify the set of registers containing pointers to the heap associated with the first stack frame and the locations of pointers within the first stack frame containing pointers to the heap", as recited in the independent claims.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
